# environmental disease

ENVIRONMENTAL DISEASES MEAN  
DISEASES OR ABNORMAL SYMPTOMS  
ARISING FROM OR AS A RESULT OF  
POLLUTION. THERE ARE 2 DISEASES:

---

# Disease from lead or lead compounds

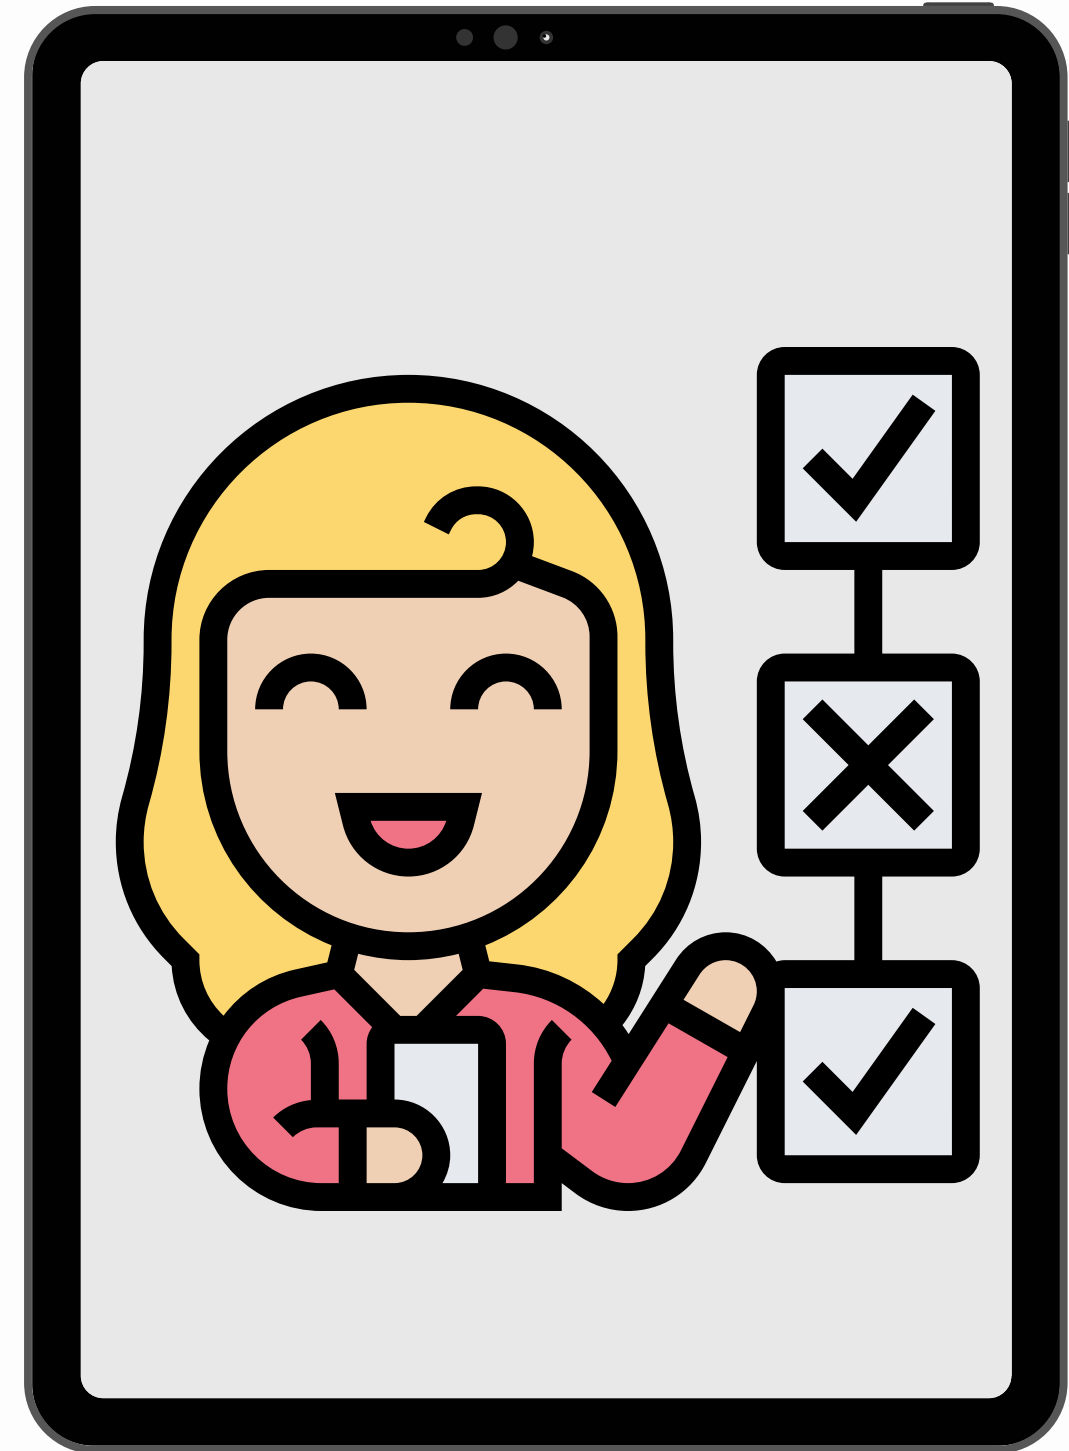

---

Diseases or symptoms caused by exposure to dust particles less than 2.5 microns in size

---

Occupational Diseases and Environmental Diseases Control Act B.E. 2562 determined that “For employers to inform employees about surveillance, prevention and control of occupational diseases”

---

Thanks!
