# Dimension of Health

# Health

Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.” This statement from the preamble to the World Health Organization’s constitution, adopted in 1946, illustrates its belief in holistic health from its very formation.

# World Health Organization: WHO

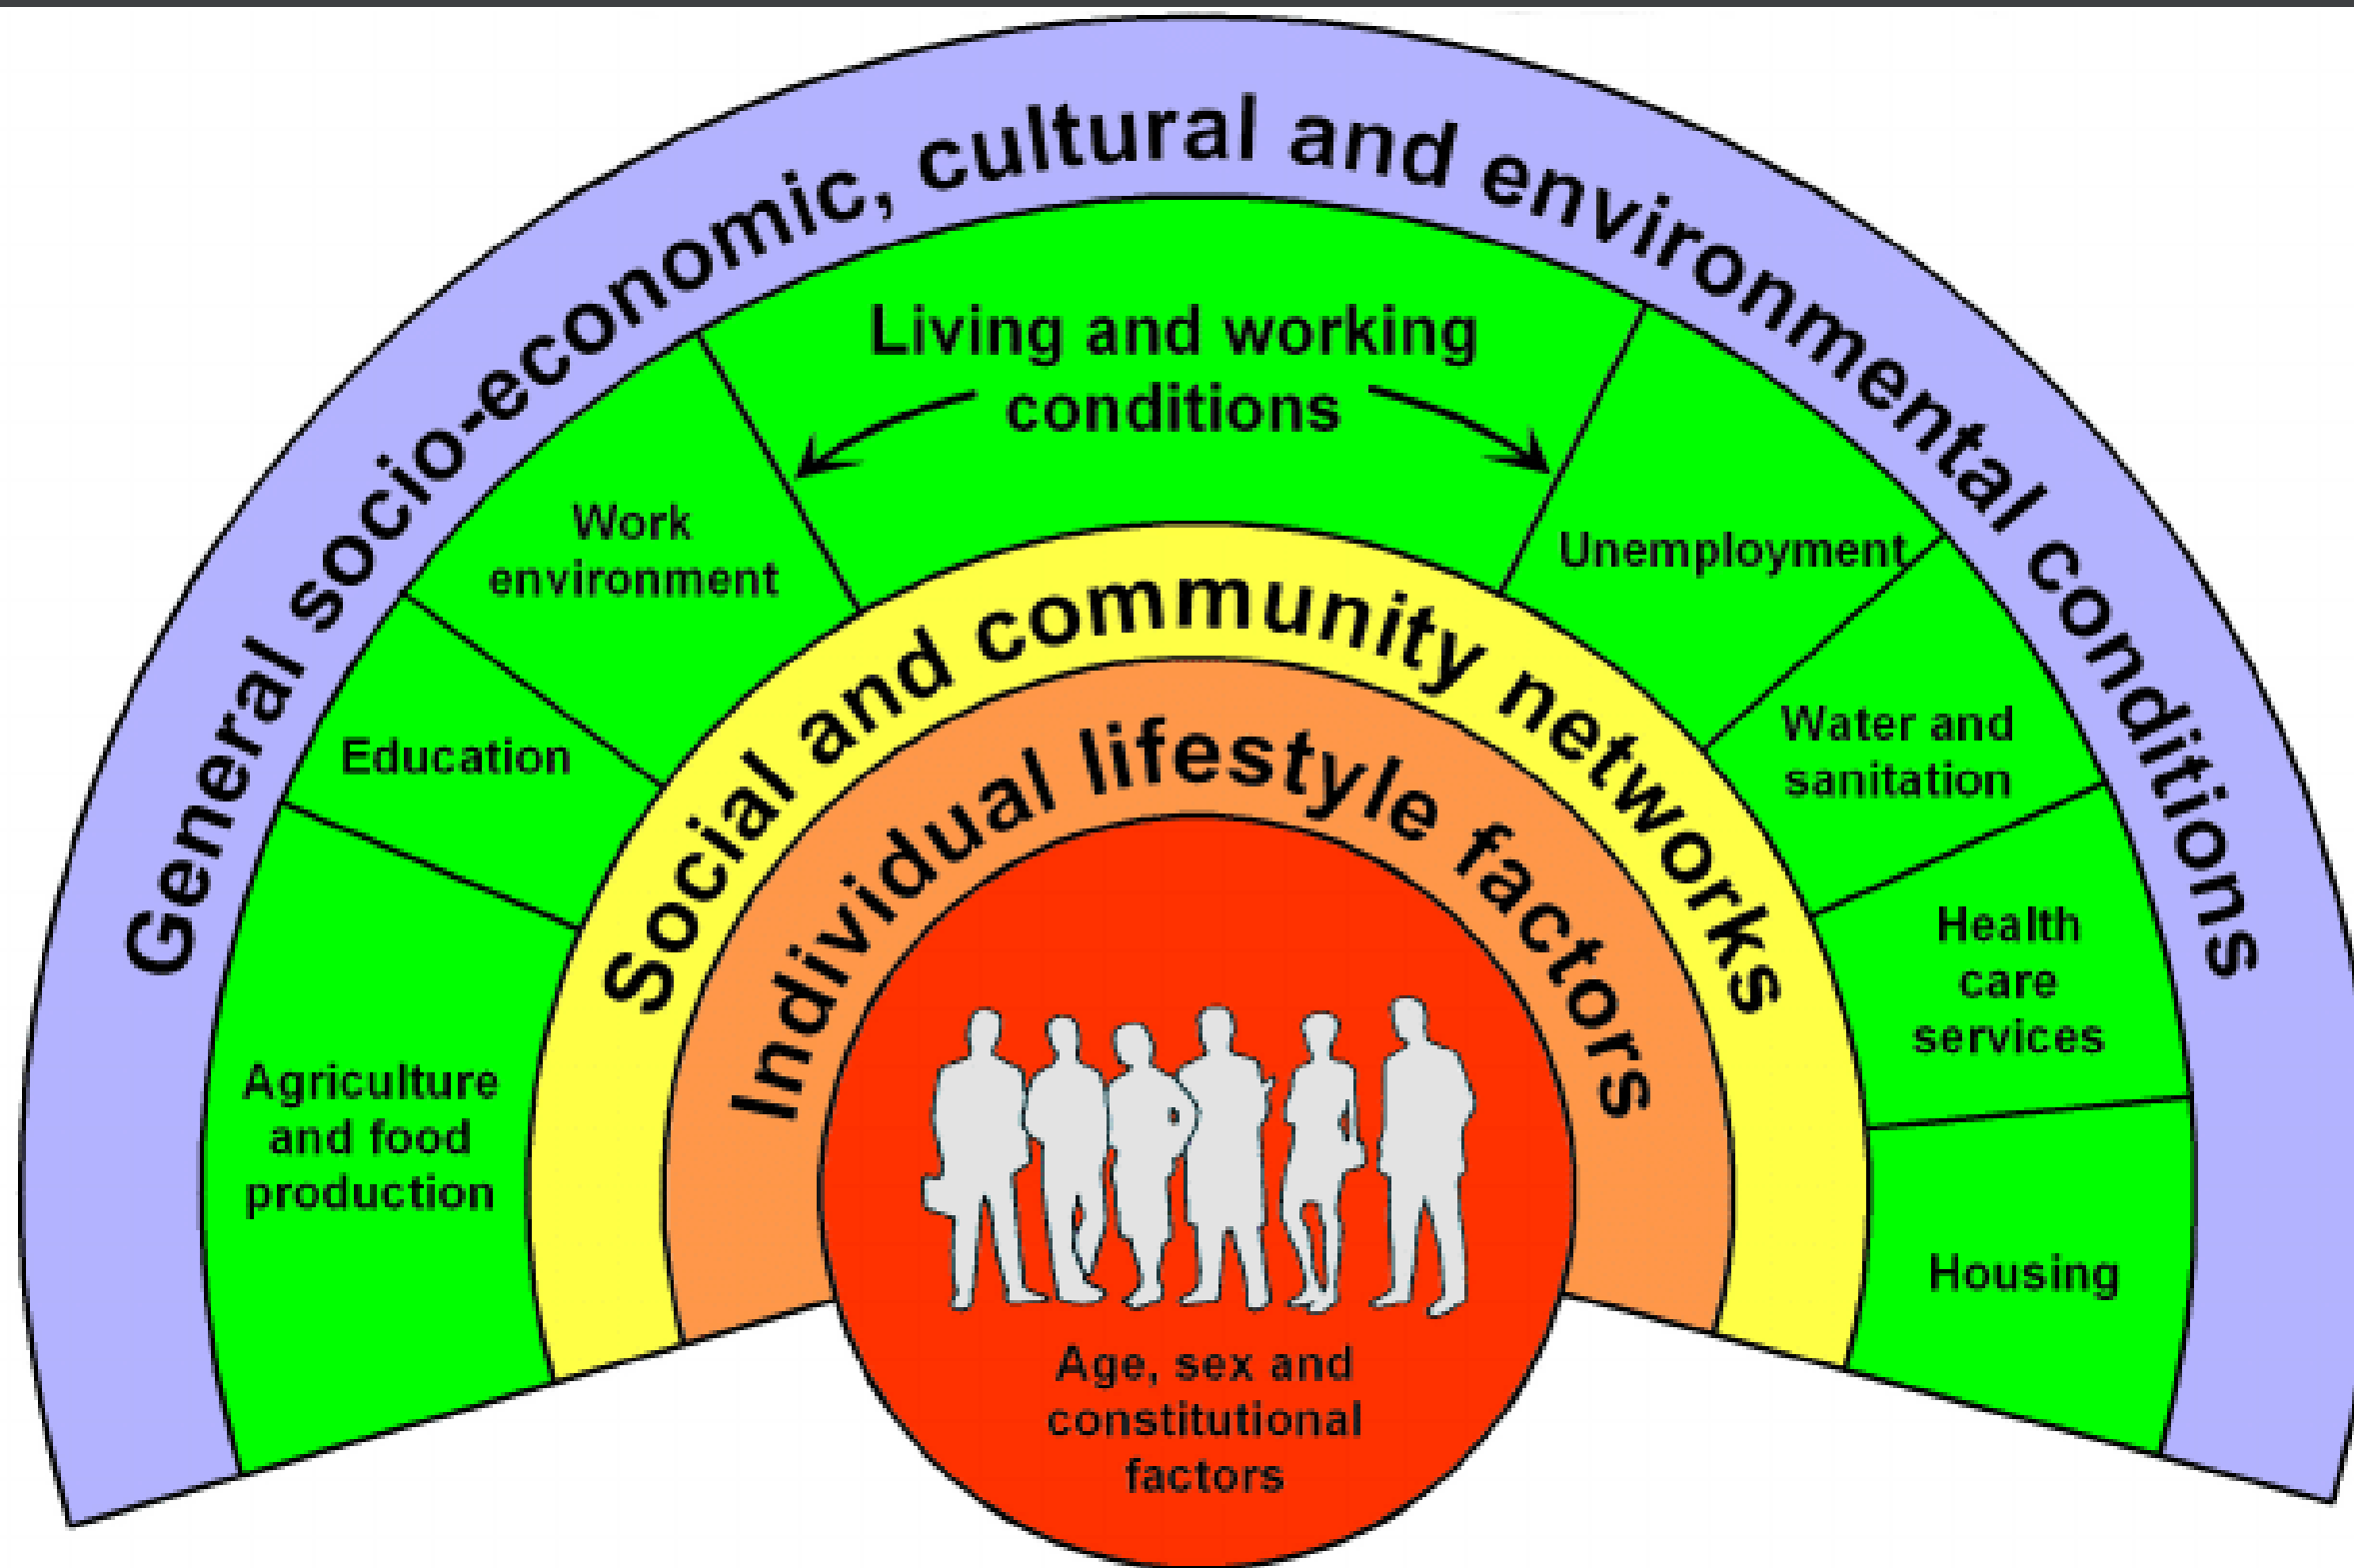

---

Health means a state of complete physical and mental health. Including living in society happily And it does not mean only the absence of disease and disability.
